Accessible Parking Sign Application Guide

Version 7, 9/3/2026; SC

DENVER ACCESSIBLE PARKING SIGN PROGRAM

This document was developed specifically for people who need direction on how to apply for Accessible Parking Signs on the public Right-of-Way (ROW) in residential neighborhoods and business districts.

Examples not inclusive of all types of signs and placards.

General Information

The Accessible Parking Sign Program manages requests for new or removal of accessible parking signs. Parking enforcement is managed by Right-of-Way Enforcement (ROWE).

Refer to website for information regarding to:

- Denver Parking Rules & Regulations
- Meter Parking for People with Disabilities
- Accessible parking signs for your property
- License Plate and Placard Information
- ADA Standards for Parking

Accessible Parking Signs For Your Property

Please contact 311 to request Accessible Parking Signage application materials.

See attached Accessible Parking Sign Program Standards

Accessible parking signs may be installed on the right-of-way for residents, businesses and multi-family properties that meet program criteria. Following proper application and documentation submission, you will be notified if your request was approved or denied, up to two weeks for response. If your request is approved, it takes at least 45 business days before the sign may be installed.

Contact 311 for application → **Submit application with documentation** → **After approval, 45+ business days to install**

Submitting Your Application

Once you have filled out the application, with copies of required documentation, submit one of two ways:

By email *(fastest response time)*:
accessibleparking@denvergov.org

By mail: Accessible Parking Sign Program
201 W. Colfax Ave., Dept. 610
Denver, CO 80202
